SUPER CHANGE™

FAST & EASY R22 SYSTEM RETROFIT

MINERAL/AB OIL
SUPER CHANGE™
HFC REFRIGERANT

- / Links Mineral/AB oil to any HFC refrigerant
- / Eliminates oil change out
- / Replaces R22 line set conversion flush
- / Boosts oil return & heat transfer

WHAT IS SUPER CHANGE™?

SUPER CHANGE™ allows for a fast & easy conversion from R22, or any mineral/alkylbenzene oil system, to all HFC refrigerants, including POE-based R407C & R410A.

HOW DOES IT WORK?

SUPER CHANGE™ creates a strong compatibility link between mineral/alkylbenzene oils & HFC refrigerants. No change out of the oil, "O" rings, or gaskets required, eliminating compressor downtime & line set flush.

OTHER BENEFITS:

- / Boosts efficiency & extends compressor life
- / Maximizes heat transfer & oil return with drop-in refrigerants
- / Reduces oil logging - critical in systems with long line set runs & rises
- / Reduces corrosion & restores lubricant to original condition by removing water & oxygen
- / Rejuvenates components by eliminating moisture
